

ENVIRONMENTAL ENFORCEMENT TRAINING

The course

Our four day WAMITAB accredited Environmental Enforcement training course will introduce delegates to the principles and challenges of working in an environmental enforcement role, the key legislation and how powers are utilised.

What we will focus on

- ✓ Littering
- ✓ Fly tipping
- ✓ Dog fouling and dog control
- ✓ Anti Social Behaviour
- ✓ Public Space Protection Orders
- ✓ Conflict Management
- ✓ Evidence gathering
- ✓ Practical Application of issuing Fixed Penalty Notices (FPNs)
- ✓ Interviewing witnesses and taking statements

900 thousand reported incidents of fly-tipping in the last year

£50 million the estimated cost of fly-tipping to Local Authorities in England

Additional information

Our training days are informal, engaging and involve a mix of teaching styles with individual and group exercises as well as Q&A sessions.

A personalised training pack is provided as part of the package.

Delegates will be assessed throughout the course and receive a recognised certification upon completion.

If you want to focus on specific environmental issues or particular legislation and its enforcement we can work with you and tailor the course to your requirements.

Our Training Venues

The courses can be taken from APCOA's training centres in:

- Uxbridge
- Southwark
- Heathrow
- Hull

We keep our groups fairly small in order to provide as personal a training experience as possible; our centres are equipped to handle groups of up to 10 delegates. Refreshments and lunches are provided on all our training courses.

We know it is not always easy to co-ordinate off-site training for multiple people. If you have a group or teams that need to be trained, we can work with you to bring our dedicated trainers to a location close to you.

Please contact us to find out which location is right, and we can work together to find a solution that works best for you.
